STATEMENTS

Statement of Leadership Council of Islamic Emirate regarding the inception of Al-Farooq Spring operation

10 Jamadil Akhir 1433 - 02 May 2012

In the name of Allah, the Beneficent, the Merciful

قَاتِلُو هُمْ يُعَدِّبْهُمُ اللهُ بِأَيْدِيكُمْ وَيُخْزِهِمْ وَيَنصُرْكُمْ عَلَيْهِمْ وَيَشْفِ صُدُورَ قَوْمٍ مُؤْمِنِينَ (14) التوبة

Fight against them so that Allah will punish them by your hands and disgrace them and give you victory over them and heal the breasts of a believing people (Taubah: 14)

It has been a little over ten years since Afghanistan has come under the barbaric occupation of foreign invaders and countless defenseless Afghans are martyred, imprisoned, their homes destroyed and orchards uprooted by these cruel occupiers with the passage of each day. But as the intensity of cruelty and savagery of the invaders increases, the fervor of Jihad and struggle amongst the heroic Afghans strengthens proportionally and with the inception of each year, the battle trenches are enkindled against the oppressors with high moral, new war tactics and strong Jihadi determination. With pure divine intentions and exemplary determination, our lives are cheaply sacrificed for the defense and service of our oppressed nation while delivering falsehood extinguishing blows to the enemy.

As the period for the inception of new Jihadi activities against the foreign forces each year is chosen and named by Islamic Emirate under new Jihadi title in consideration with the seasonal and atmospheric conditions, we would once again like to announce the current year's spring operation against the invaders under the glorified Jihadi name of 'Al-Farooq'.

The name Al-Farooq, which is the honored title of the second Khalifa of Islam Hazrat Omar R.A, was chosen for this year's operation so that with its blessing, Allah Almighty might bestow on Mujahideen such victories as were awarded to the Muslims during the triumphant period of Hazrat Omar R.A where huge swaths of lands of the infidels fell under the rule of the Muslims and the enemies were forced to take flight.

It must be stated that the primary target of Al-Farooq operation will be the foreign invaders, their advisors, their contractors and members of all associated military, intelligence and auxiliary departments.

And similarly, the high ranking officials of the stooge Kabul regime; members of Parliament; those associated with Ministries of Defense, Intelligence and Interior; members of the so called High Peace Council; Militia under the name of 'Arbaki' and all those people who work against the Mujahideen, toil to pave ground for the occupation of Afghanistan and become the cause for the strength of the invaders will also be targeted in Al-Farooq operation.

New and tested war tactics will be implemented in Al-Farooq operation and top priority will be given to safeguarding the lives and wealth of civilians. It is hoped that civilians stay away from the bases of invaders and their hirelings, their military convoys and refrain from going close to explosion sites as the enemy intentionally targets civilians to avenge the caused death/injury and attributes it to the Taliban.

Al-Farooq Jihadi spring operation shall commence simultaneously in all parts of Afghanistan on 14th Suwar 1391 which corresponds with 12 Jammad ul Thani 1433 and 3rd May 2012.

The Islamic Emirate, alongside launching its Al-Farooq spring operation, once again calls on all those associated with the puppet administration of Karzai, the so called national army, national police and all those who are siding with the invaders in opposition to the interests of Islam to stop backing the invaders and to abandon their ranks. In case this call is not heeded, all responsibility shall befall the transgressors because the Mujahideen, in defense of their country and religious sanctities, are Islamically bound and have the right to kill the foreign occupiers and their supporters, capture them and to prosecute them for their illegal actions. The Islamic Emirate, in order to establish contact and bring out officials and privates from the opposition rank, has assigned an influential 'Recruitment' Commission which works to invite them towards the truth and in case they want to join the Mujahideen, to lend all necessary assistance and guidance.

The Islamic Emirate would also like to declare to all the foreign invaders including the Americans that if you still desire to continue the occupation of our country, abuse our sanctities and oppress our defenseless nation then the Mujahideen shall also take inspiration from the historical achievements of the distinguisher of truth and falsehood, Hazrat Omar R.A. and utilize all means and military craftsmanship at disposal in their Al-Farooq spring operation to kill, expel and eliminate you. In this battle of truth and falsehood, victory and ascendency shall be awarded to the Mujahideen while defeat and humiliation shall be the fate of your moral-lacking soldiers, if Allahs wills it.

With the divine help of Allah, we are awaiting the moments when our nation shall be freed from the evil of your occupation and the Afghans become the owners of a pure Islamic system in an atmosphere of brotherhood, national unity and peace and of a government free from corruption with total security, effective education, strong economy and a tranquil life, if Allah wills it.

Statement of Islamic Emirate regarding the inhumane treatment of inmates at Kandahar prison

10 Jamadil Akhir 1433 - 02 May 2012 12:00

It has been several days since seven hundred (700) inmates inside Kandahar's Sarpoza prison have gone on a hunger strike to protest the criminal and savage treatment by officials of Kabul administration and especially the insult of the Holy Quran by the cruel prison officials. It has now been a full period that the

inmates have not had any food intake and no one has so far inquired about or listened to their demands. According to obtained information, eighteen inmates have so far entered a state of coma due to extreme hunger and the inmates wounded by the gunfire of prison guards two days earlier have not yet received treatment either. Meanwhile several innocent defenseless inmates have also been taken away by the intelligence department to an undisclosed location where they are most likely facing torture.

There is well established international documented evidence against the Kabul administration's practice of torture in its prisons especially in Kandahar which is spearheaded by Abdur Razziq, the police chief of Kandahar and his group. These sadists and members of the former brutal communist regime take satisfaction from torturing humans in a prison environment regarding which the international community has been informed multiple times.

The Islamic Emirate of Afghanistan once again strongly condemns the mistreatment of prisoners by the Kabul administration and considers such inhumane actions as yet another disgraceful act of the stooge regime.

Such savage practice is always conducted with defenseless prisoners. Our innocent countrymen are initially locked up in dark cells where they are tortured against all Islamic and international norms and Afghan customs; forced confessions are extracted and are constantly tormented, a good example of which is the current situation in Kandahar prison.

According to our information, the described situation in Kandahar is still ongoing today and the puppet officials of Kandahar have neither themselves visited the prison nor have they granted permission to the Red Cross, human right watchdogs or the media to visit and listen to the demands of the prisoners.

These actions are entirely worth denouncing and the Islamic Emirate calls on all International Human Right organizations, the International Red Cross and all claimants of Human Rights to firstly condemn this action against the prisoners and then to inquire and see the situation of the Afghan prisoners for themselves and then fulfill their duties.

The Islamic Emirate also extents a message of condolence and patience to the families of the oppressed prisoners and asks the inmates to sincerely implore Allah Almighty to destroy this barbaric enemy and free our country from its shackles. They should turn their faces to their Lord even more in such a difficult situation and pray for the salvation of the whole nation and for the freedom of our country from the claws of these invaders and their criminal puppets.

Islamic Emirate of Afghanistan's official response to the strategic agreement signed between Obama and Karzai

2 May 2012

Last night (1st May 2012) Barack Obama signed a so-called strategic pact with his puppet Hamid Karzai. Islamic Emirate of Afghanistan considers this agreement nothing more than treason by a puppet president and therefore condemns this pact with the strongest possible words. Our statement on this agreement outlines the following points:

- 1. Islamic Emirate is the legitimate representative of the Afghan people and based on this Islamic obligation, we commit to continue our armed jihad and struggle against the occupying forces and their Afghan puppets.
- 2. Islamic Emirate of Afghanistan considers the Kabul regime's president a puppet of the occupying forces. We consider every move by the puppet government to establish close ties with its international masters, an act of treason against the country and the nation.
- 3. It is reiterated that Afghanistan is under the occupation of American forces. The fact that the American president addresses his people whilst in Afghanistan clearly shows their attitude towards our country. A regime set up by the occupying forces has no legal existence and therefore any pact between the Americans and their servants in Afghanistan cannot have any importance whatsoever.
- 4. The fact is that America has been occupying Afghanistan for over a decade now. By signing this shameful pact, the United States of America is trying to prove to the world that their puppet administration is sovereign and also they want to imply that their relationship with Afghanistan has a legal basis.
- 5. This so-called strategic document signed between the Americans and their servants opens the region to a new phase of fight, struggle and political along with security instability. This is all being done by the Americans to follow their imperialistic and invasive goals and objectives in Afghanistan and the region.
- 6. This agreement will lead to more disaster and economic damage for America and its allies. By signing this pact, Americans have welcomed more physical and economic damage heading towards their people. This document will not achieve anything for the peace and progress of the American people or any other nation involved in this occupation.

- 7. The presence of occupying forces in Afghanistan is the sole reason for the instability in the region. The more they increase their presence, the worse the condition in Afghanistan gets. On the other hand, the sooner these forces withdraw from Afghanistan, the sooner the security situation will improve.
- 8. Islamic Emirate of Afghanistan considers American withdrawal from the country as the only way to ensure peace in the region. For this very reason, we announce to continue our armed Jihad against the occupying forces until the time we throw them out of our country. We have come to the conclusion that occupant America doesn't believe in any logic or negotiation other than the use of force.

Call of Islamic Emirate to the Pakistani authorities to provide clarification about Ustaz Yasir

13 Jamadil Akhir 1433 - 05 May 2012

Rumors have been swirling for the past several days that the former chief of Islamic Emirate's Cultural Commission, the famous religious and Jihadi personality, Ustaz Muhammad Yasir, has attained martyrdom under the imprisonment of the Pakistani authorities which has the Mujahideen of Islamic Emirate, the family of Ustaz and all of his associates very distressed.

The mentioned Ustaz was apprehended in the Pakistani city of Peshawar on January of 2009, news which has also been verified by the Pakistani authorities in press, and has since been held captive for the past four years.

Since rumors have now been spread about Ustaz Muhammad Yasir's martyrdom in Pakistani captivity and various other released prisoners have also told his family about his martyrdom, news which is very distressing for the Islamic Emirate and his family and at the same time, no information has been furnished by the government of Pakistan therefore the Islamic Emirate deems its necessary to demand clarification from the concerned Pakistani authority to provide information to the Islamic Emirate about the fate of Ustaz Muhammad Yasir so the matter becomes clear.

Statement of Islamic Emirate regarding the NATO summit in Chicago

28 Jamadil Akhir 1433 - 20 May 2012

According to news reports, NATO is going to hold a diplomatic summit in the city of Chicago from May 20-21 where Afghanistan will be the most important agenda on the table. Therefore the Islamic Emirate, in order to fulfill its historical obligation, wants to declare the below points to the participants of this conference:

- 1. The invasion of Afghanistan by America and its allies under the banner of 'war of terror' was an unjustified and tyrannical action which was only carried out for political and economical gains. Terrorism and ground realities had nothing in common. No Afghan had a hand in military operations in other countries and neither are there any proofs hence the occupation of Afghanistan by America is neither sound legally or logically.
- 2. As a result of this occupation, the invasive America imposed upon the Afghan Muslim nation a few war criminals that were cast offs, whose hands were red with the blood of innocent humans and who were involved in transgressing against the life, wealth and honor of the ordinary people. The Afghans have been facing torment from their brutality and crimes for the past decade while the invaders have just turn a blind eye to them.
- 3. The American intelligence networks including the CIA state that members of Al-Qaida have all left Afghanistan and that there are not more than fifty left therefore the military presence of America is not for its own security but a long term strategy for turning our country and the region into its colony. The declaration of the new president of France, Francois Hollande, that all its troops will be removed from Afghanistan at the end of this year is a decision based on realities and a reflection of the opinion of its nation. We call upon all the other NATO member countries to avoid working for the political interests of American officials and answer the call of your own people by immediately removing all your troops from Afghanistan.
- 4. The invading soldiers in Afghanistan martyr the defenseless children, women, elderly and other people of Afghanistan in their night raids and blind bombardments without having to worry about the consequences. The perpetrators of these violations are all criminals. The claimants of Human Rights must not condone them. Similarly, the occupying forces have created local militias under the title of 'Arbakis' who transgress against the life, wealth and honor of ordinary people and martyr innocent Afghans even though they cannot confront the Mujahideen physically. If the invaders want to fund and equip such groups and continue their blind bombardments then the responsibility of civilian losses caused in Afghanistan will rest squarely upon the shoulders of these forces.
- 5. We want to declare to the whole world the stooge Kabul administration tortures innocent prisoners, extracts false confessions and hands out long term prison sentences. The security apparatus of Kabul regime discriminates and treats them with prejudice. Ending this oppression is the obligation of every human being.

- 6. The invading forces have destroyed whole villages along with their inhabitants (Tarako Kalacha as example) in Afghanistan with twenty five ton bombs. They have razed entire bazaars with hundreds of shops in Helmand and Uruzgan. They have also uprooted the greenery and orchards in Panjwai and Zhari districts of Kandahar and similarly in Band-e-Sarda of Ghazni province. All this savagery is committed under the slogans of war on terror. Today's international community which touts tolerance, justice and human rights, how can it justify this savagery in Afghanistan at the hands of these self proclaimed civilized men?
- 7. In order to brainwash the public and to vilify the Mujahideen of Islamic Emirate, various networks in Afghanistan headed by the invading forces commit some acts such as the destruction and burning of bridges and schools, carrying out explosions amongst civilians, targeting of specific people for vile purposes and others, the Islamic Emirate declares its complete disavowal from them.
- 8. The occupying American forces have created secret prisons inside all of their airbases in Afghanistan where they keep innocent Afghans and carry out various forms of torture on them which has resulted in the martyrdom of many. Besides this, thousands of innocent Afghans are being held prisoners in Kandahar and Bagram airbases without any charges. These are all people who have no knowledge of the New York incident but are been held captives under its pretext for years and are languishing in unbearable conditions.
- 9. A survey conducted in April by CBS news and New York Times showed that 69 percent of Americans oppose the war in Afghanistan and want their troops out of Afghanistan. Similarly, the people of nations allied with America have also shown their opposition to the occupation of Afghanistan. So the NATO member countries who claim to be the elected representatives of its people and consider their government the peoples government, by the people, for the people; how will they answer the call of their people in this summit?
- 10. The Islamic Emirate once again declares that it holds no agenda of harming anyone nor will it let anyone harm other countries from the soil of Afghanistan hence there is no reason for the occupying countries including America to continue the occupation of Afghanistan under the pretext of safeguarding its own security.
- 11. The occupation of Afghanistan by America through the use of force is a clear violation of a sovereign state which is not justified under any international law. Those Afghans that are fighting against this violation are independence seeking Mujahideen who demand their due rights and putting up resistance to this occupation is their legal right. This armed struggle will only come to an end when the Afghans acquire their independence and a government of their choice. Imposed agreements and international conferences are not the solution to the Afghan quandary. The solution lies in giving the Muslim Afghan nation their complete legitimate and natural right.
- 12. The Islamic Emirate has left all military and political doors open. It wants to obtain the rights of the Muslim Afghan nation through all possible ways and as a responsible force, is prepared to accept all it announces however the invaders are utilizing a one step forward, two steps backwards tactic. They are conjuring artificial excuses to prolong the occupation of Afghanistan, are wavering in their stance and do not seem to have a clear strategy for a political solution. The Islamic Emirate considers the claims of the invaders of finding a political solution as meaningless until they come out of their fluctuating unstable state.
- 13. The occupation of Afghanistan by America and its allies is the fundamental problem. If this matter is solved, the Afghans understand each others language and share a common culture therefore they can reach a resolution regarding the country. The foreigners should forgo prolonging and complicating the Afghan issue for their colonialist objectives.

To end, we must reiterate that the Mujahideen of Islamic Emirate will keep proceeding with their ongoing Jihad until it attains its goal. The terrorism and savagery of the invaders and their stooges will not be able to stop it. We call upon the leaders of the NATO member countries to realize the ground realities of Afghanistan and acknowledge the natural rights of the Afghans which are an independent nation and establishment of a government of its own choice. Similarly, they should stop the gross human right violations ongoing in Afghanistan and the desecration of the sanctities of Afghans committed by their troops. But if they still refuse to pay attention to the consequences of their criminal actions, then they will also be erased along with their oppression and terror on this blessed soil just like the previous imperialists and only their stories shall remain. The Islamic Emirate of Afghanistan

Remarks of Islamic Emirate regarding the ostentatious and inconclusive Chicago conference

01 Rajab 1433 - 22 May 2012

For a whole two months, the American military and civilian officials, western and its surrogate media and other American influenced so called 'Experts' strongly advertised the Chicago conference; optimism was shown; it was considered a last chance; was called the largest summit; was touted as the key to tough questions and on which the hopes of a lot of people were riding _ came to an end yesterday.

Several allies of America and their stooges had hoped that large sums of financial assistance to the Kabul administration would be announced in the conference and trumpets would be sounded that America has won and everything is orderly but fortunately nothing like that transpired. Conversely, disappointment was echoed in all statements and in the end remarks mixed with repeated words which have been exhausted and listening of which was pointless, for instance; America and its allies will pull out all its combat troops from Afghanistan by the end of 2014, residual force for training would remain!!? Everything else is progressing along fine and some other empty, inconclusive, deceptive and far from reality claims.

That it was pronounced again at the end of the summit that most of the occupying forces will leave Afghanistan but some would remain as trainers and advisors to prolong the occupation, this is neither the solution for solving the problem nor is it an acceptable option to the Muslim Afghan nation. The Islamic Emirate of Afghanistan, as the representative of its people, would like to state that the fundamental solution is that all the invading troops withdraw as quickly as possible. Leave the Afghans to their own decisions.

Another thing worth lamenting is that the constant ongoing death of innocent civilians in Afghanistan caused by the American night raids was never even mentioned in the summit. The internal issues of Afghanistan such as the rampant corruption, state terrorism, insecurity and the plight of people due to increasing poverty were also not addressed.

We believe that vain ostentatious conferences, preoccupying media outlets and telling short lived lies to their own nation and the people of the world has lost all credibility and cannot alter the ground realities in any possible way. The fact remains that here lies an independent nation and an independent people. Subjugating this nation is an elusive dream which have never been realized throughout history. So if America and its allies still want to keep deceiving and temporarily distracting the people from the fundamental problem then they must realize that the people have now become familiar with their wavering policies, they are not going to play along and neither has the world agreed upon eternally giving precedence to America. It would be beneficial if time is not wasted here, nations are left to their won decisions, dreams of invasions and occupations are disregarded and the people of the world especially the Muslim nations and their sanctities are treated with respect. Such actions have the potential of solving the core fundamental problems. Erase brutality and depravation and turn towards international peace. If on the contrary you insist on war, hypocrisy, fraud and deceiving members then without a doubt, problems shall multiply and nations are prepared to defend their religion, country, life, wealth, sanctities and honor and resort to all viable options on the table to attain their goals.

The Islamic Emirate of Afghanistan

Declaration of the Islamic Emirate regarding the schools burning and poisoning of the female studen

10 Rajab 1433- 31 May 2012

According to the media reports recently in Takhar province some female students of a school were poisoned. Earlier reports were given about Khost province and some other parts of the country. Some pro-colonial and anti-jihadi media which normally reports these incidents prior to anyone else, abruptly blamed the Islamic Emirate and did not wait for the official spokesman of the Islamic Emirate to assess this incident. Elsewhere the media neglects that in 2011 in an educational conference in London the education minister of the puppet regime of Kabul acknowledged that the so called armed opposition is not against the education of boys and girls. Similarly the professional deputy minister of this office told the media that the schools are destroyed by some criminal gangs and not by the Taliban. At the same time we would like to say that on 22nd February in Kashkot area of Khewa district one teacher and 9 students were injured in the indiscriminate shelling of helicopters by the invading forces. But the stooge media have turned a blind eye over all these facts and realities.

he fact is that recently the invading forces have martyred and burnt innocent civilians and children in Zangawat area of Panjwai district and prior to that they have humiliated the bodies of the martyrs. Similarly in Bagram air base they committed the unpardonable act of disgracing the Holy Quran. Now the invaders and their local stooges try to divert the attention of the Afghan nation as well as of the international community from their barbaric deeds and crimes by these kinds of planed issues of infecting the girls.

The Islamic Emirate once again declares that these and likewise dire incidents are carried out by some intelligence agencies including the intelligence agency of the puppet admin of Kabul by the name of national security.

The policy of Mujahedeen is palpable i.e. armed resistance against the invading forces and their supporters till the liberation of the country.

Moreover false allegations of the invaders and their hired media against Mujahedeen are the part of the media war and have no reality.

The Islamic Emirate declares its complete acquittal and says that this kind of criminals will be penalized according to the Islamic Law where ever arrested inside the country.

Islamic Emirate of Afghanistan

If the realities are not accepted, the Chicago Conference will be another failure

24 Jamadil Akhir 1433 - 16 May 2012

It is decided that on 20th and 21st dates of the current month the twenty-fifth meeting of the NATO member countries is going to be held in Chicago, USA. According to the reports besides the 28 member countries, 60 more countries will also participate and among other issues, the issue of Afghanistan will also be discussed. It is said that the meeting will be held behind closed doors and the public will be kept away from the conference. The reality is that there are 140,000 troops of NATO and America is present inside Afghanistan even now. Moreover 300,000 people of national army

The reality is that there are 140,000 troops of NATO and America is present inside Afghanistan even now. Moreover 300,000 people of national army and police working as their stooges are also there. But they are a total failure in front of the national and Islamic resistance. The reason is quite obvious. Armies can fight armies but cannot fight nations.

The biggest mistake of the invaders is that they construe the national and Islamic movement (resistance) as terrorism just for their malicious objectives. As long as the invaders do not accept the ground realities in Afghanistan and do not acknowledge the natural rights of the Afghan nation, the Afghan issue can neither be solved by the strategic co-operation nor by the NATO meetings. A lasting occupation means a lasting resistance.

If they really do hold up human rights and justice, they should include the end of the occupation, the trial of the those troops who violated human rights, halting violations of the sanctities of Afghan Muslim nation including the indiscriminate massacre of the innocent Afghans and the cruelties of the warlords in their agenda. They should give the right of full freedom to the Afghan nation. If they neglect all these issues and support the colonial plans of America, then all the slogans of supporting human rights and justice are all white lies and their destiny will not differ than those whose imperialism was wiped out from this soil and who have now become only the memories of the past.

In last April a joint survey of CBS and the New York Times showed that 69% Americans are against the war in Afghanistan and they consider it a useless, meaningless and an un-winnable war.

In the beginning the white house officials wanted to justify the illegal invasion of Afghanistan under the title of the so called war on terrorism and on the other side to deceive the Afghans by the democracy, freedom and human rights; but their deeds showed that these invaders are the biggest violators of the basic human rights. In the past ten years, the life of the ordinary Afghans has worsened both economically and security wise. 40% population of the country is living under the poverty line. Electricity is brought from a neighboring country with such a huge amount which would have been sufficient for the construction of a dam inside the country.

Similarly 80% of the funds collected under the name of Afghanistan go back into the pockets and bank accounts of these invaders, NGOs and the warlords. The press says that this corruption has now even entered the UN offices and millions of dollars have been embezzled.

The colonial game of the Americans is a total failure in Afghanistan. We call upon the nation of America and the NATO member countries to arrange large scale protests prior to the Chicago conference. Similarly we request the politicians and writers of the world having free conscience to disclose the atrocities of the Americans and their allied forces inside Afghanistan and to support the Afghans morally in their just demand.

We consider it the duty of every human being for having a peaceful world and insuring justice.

Can the Afghan dilemma be solved only by conferences?

03 Rajab 1433 - 24 May 2012

If the Afghan issue was solvable by mere conferences, it should have been solved long ago. A number of regional and international conferences like Bonn, Tokyo, London, Lisbon, Istanbul and the latest Chicago conference have been held. But the reality is that after each conference the Afghan issue is made much more complicated. The reason is that these conferences are not held but for the deterioration of the core issue.

It is just for the justification of the American and its allied occupation of Afghanistan. Since the main intension was not for the solution, they could not find out any workable resolution.

In the beginning (ten years ago), America considered itself the exclusive power of the world. She did not take anyone into consideration. She announced that in the present global situation, national sovereignty is meaningless and there are no borders for us. If America considers that its security is in danger, it can retaliate anywhere, anytime and on anyone. It was the heroic Afghan nation that made America and its buddies realize that the freedom and national sovereignty of other nations not a pudding to be swallowed easily.

The Americans do avail advance technology and modern satellite systems but the ongoing Jihadi movement is equipped with sacred belief, fervor of sacrifice and it enjoys wide range public support. It is a weapon which is available neither in Washington nor in Pentagon, London or in Bonn. This is a reality which can never be altered by mere propaganda.

We have repeatedly said that in Afghanistan an Islamic and national Jihadi movement is going on against the external invasion following the example of our forefathers. Its nature and essence cannot be changed whatever blames and labels are assigned to it. As long as the invading forces under the headship of America do not surrender to the natural and legitimate right of full sovereignty and the establishment of a system fully coherent with their beliefs, cultures and traditions; these conferences, false media reports, superficial diplomacy and advance technology cannot solve this dilemma nor can terminate the war.

The most core necessity for the solution of this problem is sincerity, the acceptance of reality and handing over the right to the right people. Otherwise the Afghan predicament cannot be solved in the following decade just as it could not be solved in the past decade.

Therefore our message to the participants of the Chicago conference is that if they really want to solve the issue, they should realize and accept the ground realities inside Afghanistan. They should respect the sovereignty of Afghan nation. They should let this nation build a system in free environment, reflective of their religious rules and national characteristics and parallel with dreams and wishes of Mujahedeen.

It can not only guarantee the security and stability of the country but also of the whole region and even the whole world.

Pro-colonialism media

08 Rajab 1433 - 29 May 2012

One of the basic principles of journalism is that media will provide facts about an incident to the readers. It will not make the judgment by itself, because it is the duty of the readers or the listeners. But it is totally different in the case of Afghanistan. Here some media put out the news, most of the time false news, and makes the judgment by itself.

In the last decade the horrific incidents frequently and practically showed that inside Afghanistan the invading forces and their stooges are the palpable violators of the human rights. In practice they do not allow the freedom of speech. But these external and some internal media did not point out they cruel acts. Rather we can say that the invaders of Afghanistan utilized the media just to distort the realities, to confuse the minds of the local and international community and just to resist the ongoing struggle inside Afghanistan.

Sometime they the media give the reports which are not a ground reality and even against the national interests of the people; on the contrary it the political and military objectives of the invading forces. The false news is repeated so many times that in their mind the people start believing it. At the same time the tragedies of Ghaziabad of Konar province, Zangabad of Kandahar province, Azizabad of Herat province and Dehrawut of Rozgan province in which hundreds of innocent children and women were martyred is totally neglected.

When the Afghans come out to defend their sacred book i.e. the Holy Quran, and dozens of them are martyred by the puppet administration of Kabul, the media remains calm or even some time they fabricate some external links for it.

The trespassers have not left any crime uncommitted. They martyred the innocent children sleeping and then burnt them. They tortured the prisoners in the jail and killed them. In the heart of Kabul, people were imprisoned in personal jails. They dishonored the sanctities and the dead bodies of the martyrs. But the pro-colonialism media do not put a glance on it as if it is blind and deaf.

The prolonged imprisonment and horrific torture of the innocent Afghans by the name of terrorism, without any trial in Bagram, Pulicharkhi, and Guantanamo cannot awaken their consciousness. Just the previous day in Gardacherai area of Paktia province, eight members of one family including woman and Children were martyred. Surly Afghanistan is a testing place. Here the trials and strokes of ill-luck verified the reality of all those false and fake champions of human rights who were boasting all the time about the nationalism, national culture and the freedom of speech.

The important thing for them is to fabricate news and put it on the air that Taliban are against the schools and burn it. They do not broadcast it denial by the Islamic Emirate. They like to co-relate the ongoing struggle with un-indigenous people. They do not feel ashamed to call the heroes of the ongoing resistance as terrorists. They priority is to justify the atrocities committed by the invading forces and to exonerate them.

How will they satisfy their conscience, the nation and the history?

Let us say that there are fact finding and independent media which could not be bought by colonial powers in the last decade by dollars nor could subdue them by force. The Islamic Emirate appreciates their role for religion, nation and the beloved country.

One year after the martyrdom of Sheikh Osama!

Shahid (Ghazniwal)

15 Jamadil Akhir 1433- 07 May 2012

It was a rainy November day in the year 1996 when we visited Maulawi Khalis colony in Jalalabad to meet Sheikh Osama bin Laden in his quarters. Our meeting with the Sheikh was arranged by his close associate Abu Khabab al Misri, who was described as the chemical expert of the Al Qaeda organization by the Americans and was later martyred in a drone strike in the August of 2008 in South Waziristan.

Osama bin Laden has only recently arrived to Afghanistan from Sudan and was living at the private building of Engineer Mahmood in Nangarhar under the quidance of the late Maulawi Younus Khalis Baba.

This structure was surrounded by a lot of other buildings where the close associates as well as bodyguards of Osama lived.

We reached his quarters at a time when they had gathered for Friday prayers in a Mosque based inside the building. Mustafa Abul Yazid, who was appointed as the military chief of Al Qaeda in Afghanistan in the year 2007 and was martyred in Waziristan in a drone strike in 2010 was giving the Khutba of the Friday prayers.

About a day earlier, the Taliban in Kabul had officially announced the presence of Osama bin Laden in the areas controlled by them therefore it was the first time that they used loud speakers for the Friday Khutba and prayers.

We offered our prayers behind Abu Muhammad al Misri and then proceeded towards the guest house where we were then joined by Osama and his first deputy, Abu Hafs al Misir (Muhammad 'Atif).

I had never met Osama however Abu Khabab al Misri identified the foremost as Sheikh and the other as Abu Hafs al Misir from afar.

We began lunch after a formal initial introduction. Besides Osama and Abu Hafs, a few of their bodyguards also joined us for lunch. Even though food was not up to the standard of a ceremonial occasion but due to it being late on the one hand and extremely delicious on the other therefore it was well eaten and enjoyed by both the guests and the household.

As we ate, Osama talked about the great lengths and difficulties Afghans go to in order to take care of their guests and greatly praised this attribute. Tea was served after lunch in accordance with Afghan culture and the Sheikh began his speech. He began his formal talk at the start of tea as he was well acquainted with the culture of the Afghans.

Sheikh Osama began by asking me to elaborate on the message of Taliban given in his support. I told him that the Taliban announced his presence and declared support for him in areas under their control to the media during a press conference yesterday.

The Sheikh was delighted with this news and then related the story of what the president of Sudan, Omar Bashir, had told him while expelling him under the pressure of America.

He repeatedly praised and gave thanks to the Taliban and the Mujahideen of Khalis Baba for honoring their guests and for giving him special assistance and said that Afghans are a nation who have little competition when its comes to Islamic valor.

He talked with a very soft tone and gave me a lot of information about his Jihadi methodology in this calm meeting.

He started off by talking about his studies of economics in Malik Faisal University in Saudi Arabia; then his links to the Muslim Brotherhood organization in the initial stages of his political life; his participation in Jihad against the Russians in Afghanistan; the victory of Mujahideen and the collapse of communism were systematically described one after the other.

He followed this up by talking a great length about the destructive plots of America hatched against Islam after the defeat of communism and about defending the Islamic world by combating such plots. At that time, no gestures were given about such a big military confrontation with American but rather most of his talk expounded on how the Muslims must become aware of this point and think about how to free themselves from these western conspiracies.

He talked on this subject until the call for Asr prayer was given. Then we headed to the same mosque together, prayed in congregation and walked back to the gate of the guest house. There we took leave from him and then abu Hafs escorted us to the outer door where we also took leave from him and headed towards Jalalabad city.

6 years later from that day, in August of 2001, we had our last meeting in Kandahar. This time we met in his house which was located in Lo Wiyala area of Kandahar city.

A lot of difference could be noticed in the military state and talks of Osama bin Laden this time around as compared to the previous. From his talks and actions, one took the impression as if he was physically standing in the battle field against America. A detailed geographical map was hung in his private guesthouse. The borders of all those countries that once fell under the rule of Ottoman Empire were highlighted. Osama bin Laden said while indicating towards the mentioned map that this entire region was once a united Islamic Caliphat however it was distributed into various countries in 1915-1916 under the colonial Sykes-Picot treaty. He said that the Muslims must work to bring together this fragmented region and establish an Islamic Caliphate on it.

This time the Sheikh was joined by his second deputy, Ayman az Zawahiri, who would interrupt his talk from time to time for endorsement.

A month after this meeting, the bloody events of September took place which gave a practical side to the confrontation between Sheikh Osama and America and at the same time, it also brought about the excuse of bringing down the rule of the Taliban in Afghanistan.

Ten years after those bloody events, America finally managed to martyr Sheikh Osama in a military strike in the city of Abbottabad and in doing so, ended one chapter of the ongoing confrontation between Osama and America.

It has now been a full year since Osama bin Laden was martyred however the anxiety brought about by the confrontation and felt by the Americans inside and outside America is still the same. Outside America, warning bells are ringing inside the American embassy in Kabul on the first day of the anniversary of martyrdom of Sheikh Osama bin Laden while the warning meters inside America are being kept at an all time high.

If the problem was in fact between the confrontation of Osama and America then that was solved a year ago however if this confrontation was an excuse for occupying Afghanistan and persecuting its people then I believe that it will not be solved for many years to come and in the end, the fate of the United States shall be the same as that of the former Soviet Union.

The wrath of Jihad 'Al Farooq Operation' launched in Afghanistan

21 Jamadil Akhir 1433 - 13 May 2012

In the Name of Allah, the Most Beneficent, the Most Merciful.

Al Farooq operation is the name of the country-wide Islamic Emirate's offensive this year. A year has passed since the launch of Al Badr operation which still terrorizes the hearts and souls of the Kuffar invaders. Al Badr was an operation that kept the world media engaged with shocking news of courageous efforts against the occupying forces.

Al Badr operation of course could not totally avenge the cruelty, genocide, disgrace and other acts of wildness directed against our people, however, it was a wave of joy for all those that have suffered from those brutalities. It was a message from the heirs of all the martyrs and the homeless that went back to the west with the dead bodies of the Jewish troops. May they put these messages on their tombstones.

As we all know the occupying enemy is facing a disastrous defeat. This year's 'Al Farooq Military operation' has been launched to counter all of their conspiracies; and so far we have inflicted considerable damage to these enemies across the country especially in the capital Kabul. Now, the enemy is trying all its tricks to bring rift between the Mujahideen and the general public. They are dedicated to conceal their defeat and pave their way to eventual withdrawal.

Now that the New Year's operation 'Al Farooq' has been launched, thousands of martyrdom lovers and those who want to gain the exalted title of 'Ghazi' will draw into the ranks of the Mujahideen. We will soon observe that 'Al Farooq' will replace 'Al Badr' as the message of fear and terror and will deprive them of their sleep. We believe this because the start of the operation this year indicates how successful it will be over the course of the year. The coward father of the crusaders and Zionists 'Obama' came to Afghanistan in the dark of the night to sign a shameful pact with his local servant. On the same night Al Farooq operation was launched which targeted the American base of 'Green Village' in the capital Kabul, sending an alarming message to the Zionist president of America. Hearing this, the American crusader was not able to stick on the ground and left Afghanistan in the dark similar to the way he had entered. If a single strike against the so-called green village of the crusader army can force their leader to flee our homeland so soon, then let's imagine how long will it take to terrorize their paid foot soldiers. When faced with the true Mujahideen who are ready to sacrifice their lives for their Deen, no crusader will be able to stay for long on the ground.

Inshallah, we will soon see the scattering of this Jewish alliance and soon the occupying forces will withdraw from our country. As the name 'Al Farooq' literally suggests, it is the operation that will show the world the difference (or farq) between 'Haq' (truth) and 'Batil' (Lie). The mass civilian population of Afghanistan have also come to the conclusion that the western occupiers are nothing but intruders who have been crossing lines in the areas of traditional, religious and cultural norms. They have now understood that the more they keep silent against these tyrannies the more such intrusions will increase and in fact such a silence can cause the unlimited wrath of Allah Almighty. With the launch of Al Farooq operation, we should know that a country wide armed resistance will take place and with Allah's help and people's support, the Islamic Emirate under the leadership of the Mujahideen will be revived. Such a move will be nothing but the interpretation of this holy verse:

زَهُو قَا كَانَ الْبَاطِلَ إِنَ الْبَاطِلُ وَزَهَقَ الْحَقِّ جَاء

Truth has arrived, and Falsehood perished: for Falsehood is (by its nature) bound to perish.

With Allah's help, the sons of Islam and Afghanistan have infiltrated the ranks of the army and the police and are impatiently waiting for their opportunity to kill as many crusaders as possible and quench their thirst for the blood of the enemy. Last year as well, as part of 'Al Badr' operation, the sacrifice of a courageous and faithful brother who had infiltrated the Afghan army led to the death of 17 French invader soldiers. Following that attack, the French unilaterally decided to bring out their troops from Afghanistan. This French decision nevertheless terrorized all the other satanic allies as well.

The invaders should be made aware that the names of these operations are not merely accidental rather they have a special meaning and interpretation. With every success, the truthfulness of these names appears before all the faithful ones. The people of Afghanistan and the rest of the world should look forward to the spontaneous attacks of the lion-hearts of the Islamic Emirate. They should see how many more coffins of filthy soldiers will be transported back to their homelands. How many crusader mothers will never see their sons again and how many more of the filthy night partners will lose their dreams!

Indeed the Muslims are looking forward to their heroes to destroy and humiliate their enemies; destroy their check posts, barracks and bases. The satanic plans of the crusaders will be countered by the brave moves of the Mujahideen and inshallah the flag of the Kufr will be brought down and the Islamic flag will be hoisted back in the holy land. Ameen

O Allah, make them and their weaponry a booty for the Mujahideen

You are our support and you are our only Victor; by your order we attack;

BY Your order we retreat and by your order we fight

O Allah, the sky is yours; the earth is yours; the sea is yours,

so whatever forces they have in the sky, drop them.

Destroy all their forces in earth and sink all their forces in sea

O Allah, deal with them for verily they can never disable you

O Allah, retaliate upon them, afflict them like you did to Pharaoh and his nation

O Allah defeat them, destroy them O the All-Strong, the All-Mighty

Allahu Akbar
